I don't know who the \u2665\u2665\u2665\u2665 any of these characters are, but you get a little kid with a lightsaber, a battle droid that fights with a broom, and a Hutt, so i'm pretty happy.. Not a fan of it, but whatever, it comes with the season pass. I have no idea what the f**k Freemaker Adventures is, but the pack is still fine. It adds Baash (Iktotchi), Graballa the Hutt, Kordi Freemaker, Naare, Raam (Iktotchi), Roger (Battle Droid), Rowan Freemaker, Zander Freemaker, Star Scavenger (Full-size Vehicle), Star Scavenger (Microfighter Vehicle). Almost nobody knows who the characters are but it's only \$2 if you're buying it seperatly, or free if you get the season pass because there's about \$20 of content included in the pass. As I said, characters are unrecognizable, but they're okay, it's nothing really 'special' though.. this pack was great but limited in the character variety. I do not recognize the characters, so they must be from one of the animation series or the graphic novels. Even so, this pack adds new characters to the base game, which is nice. This pack is included in the season pass.. For those of you who don't know, the Freemaker Adventures is another one of those animated lego series on Disney XD, like the yoda chronicles and those shows. I haven't watched this show, mainly because I'm not interested, but the characters and character design is good. Especially the battle droid with the broom.

I like that broom. it's nice to have it, however is this going to be transfered over for mac pleasssseeeee!!!! Also can the prequel Pack be transfered to mac as well.

Not familiar with the cartoon... but whatever. I like to have all.... of the characters.. All of the characters are cool if you know them or not (YOU GET A HUTT!). If don't have the money there are other packs with characters you probably know. Its a nice addition to the game.
